

I-15 NOW Project Update

Following is a brief update on the status of the I-15 NOW project.

Items Nearing Completion

New inside lanes and median barrier between I-84 and 24th Street
North side of Weber River Bridge on 31st Street
North side of 31st Street Bridge
Southbound I-15 on-ramp at 31st Street

Upcoming Milestones and Projected Completion Dates

12th Street canal – Spring 2007
21st Street overpass (Median Portion) – Summer 2007
South side of 12th Street interchange – Summer 2007
31st Street Interchange – Fall 2007
450 North (Pioneer Road) overpass (Median Portion) – Summer 2007
1800 North overpass (Median Portion) – Fall 2007
2700 North overpass (Median Portion) – Fall 2007
Noise walls between I-84 and 31st Street – Fall 2007

Upcoming Impacts To Motorists

Considerable construction will take place as new outside lanes and freeway on and off ramps are worked on during 2007. Motorists will find it necessary to use alternative on and off ramps at various times. By early fall, all traffic from I-84 to 12th Street shifted onto the new inside lanes of traffic. 12th Street and 2700 North will also be reconstructed.

Milestones Achieved

Demolition and replacement of the north side of the 31st Street overpass.
Opening of new inside lanes between I-84 and 24th Street.

Project Contact Information
